State and Australian Government financial incentives and benefits as at October 2020. Industry Associations may have additional schemes and funding available. Check with your industry organisation directly. Waiting periods are in place before an employer can apply for an Australian Government Incentive for an Australian Apprentice. The National Training Contract must be formally approved and probationary period completed. The Australian Apprentice must still be employed by the same employer and commenced training in accordance with the approved Training Plan. Benefits and services are subject to change at any time without notice. Please check our website apprenticeshipsupport.com.au for full and current details. Existing Worker: For Federal Government incentives purposes the definition of an Existing Worker is a person who has an employment relationship with the employer for more than 3 months full-time, or 12 months permanent part-time/casual, or a combination equivalent to more than 3 months full-time. For access to State Funding, e.g. User Choice, Smart & Skilled, the State Training Authority may calculate the Existing Worker status differently. Please contact Apprenticeship Support Australia for further advice.
